(4x5=20)

8. Mr. Y, aged 21 years, lost his mental balance after the death of his parents in an accident. He was left with his grandmother, aged 85 years, incapable of walking and dependent upon him. Mr. M, their neighbour, out of pity started supplying food and other necessities to both of them. Mr. Y and his grandmother used to live in the house built by his parents. Mr. M also provided grandmother some financial assistance for her emergency medical treatment. After supplying necessities to Mr. Y for four years, Mr. M approached the former asking him to payback ₹15 lakhs inclusive of ₹7 lakhs incurred for the medical treatment of the lady (grandmother). Mr. Y pleaded that he has got his parent's jewellery to sell to a maximum value of ₹4 lakhs, which may be adjusted against the dues. Mr. M refused and threatened Mr. Y of legal suit to be brought against for recovering the money. Now, you are to decide based upon on the provisions of The Indian Contract Act, 1872:
 - i) Will Mr. M succeed in filing the suit to recover money? Elaborate the related provisions.
 - ii) What is the maximum amount of money that can be recovered by Mr. M?
 - iii) Shall the provisions of the above act also apply to the medical treatment given to the grandmother?

17. **Case Study: Banking Sector – Evaluating Opportunities (for charts refer colour print)**

The Indian banking industry is a mix of public sector giants, private sector leaders, and regional banks. With rising credit growth, strong government backing for PSBs, and rapid adoption of digital banking, the sector offers multiple investment opportunities.

Mr. Raghav, a financial manager, is analyzing four banks – HDFC Bank, IndusInd bank, Yes Bank and South Indian Bank. He has been provided with their technical charts (support & resistance zones marked) and a peer comparison sheet with indicators like Dividend Yield, Quarterly Profit Var %, Quarterly Sales Var % and ROCE %.

Q1 (2 marks): Looking at the four charts, which bank stock is trading closest to a strong support zone, indicating a good entry opportunity? Justify.

Q2 (2 marks): Identify and explain the bank that is currently near a resistance level, suggesting limited upside in the short term.

Q3 (2 marks): From the peer comparison fundamentals (Dividend Yield, Quarterly Sales Var %, ROCE), which bank appears to be the fundamentally strongest and which the weakest? Explain briefly.

Q4 (2 marks): Based on chart patterns, which stock has recently created a very strong base surging upwards, making it technically good to hold at present? Give Reasons.

Q5 (2 marks): Considering both fundamentals & technical charts, which single bank should Mr. Raghav ideally choose for a medium-term investment? Explain Briefly.

IV D. Read the following passage and answer the questions that follow: (5x1=5)

Many of the underdeveloped countries will promote the growth of their economies in one way or the other, no matter whether they receive substantial outside aid in the process or not. The character of that development, however, is likely to be strongly influenced by the types of and amounts of aid available. The outcome is much more likely to be favourable, from the standpoint of the objectives for successful development set up previously, if there is substantial international aid than if there is not. By substantial aid I mean not only large amounts of technical assistance but also of capital. Initially, the capacity of an underdeveloped country to use capital productively may be surprisingly small, limited by lack of organisation, trained personnel and other social obstacles. At this stage technical assistance is the main need from outside, with comparatively small amounts of capital, much of which may have to be in the form of grants for non-self-liquidating projects, in education, health, access to roads in rural areas, and the like, if, at this stage, substantial capital is available from outside to supplement what can be formed internally (and to simulate internal capital formation, for it does that too) the rate of economic growth can be consistently increased, and the strains and frustrations and political risks of the development are likely to be considerably less. It is possible for underdeveloped economies to modernise themselves with very little capital from outside. Japan imports of capital were small though some of it came at crucial times. The contribution of foreign direct investments to the advancement of technical know-how also was greater than would be indicated merely by the size of the investment. The Soviet Union industrialised its economy with practically no aid from foreign investment capital except for the foreign owned installations confiscated after the revolution, though it imported

machinery in the early days on short term or immediate term credits and hired services of foreign experts. Both Japan and Russia achieved their development in an authoritarian political and social framework. The outcome in both cases from standpoint of the peace in the world and democratic ideals, was highly unfavourable. In the absence of outside aid, the only way to accumulate capital, is to increase production without taking much of the benefit in more consumption or even while pushing consumption standards down. Where the people are already near the subsistence level this may mean extreme hardship. Somehow the people must be motivated to change their accustomed ways quickly, to work hard and to forgo present consumption so that capital investment can be made.

25. According to the passage, what is the likely influence of international aid on the character of economic development in underdeveloped countries?

- a) International aid has no significant influence on the character of development.
- b) International aid always leads to unfavourable development outcomes.
- c) International aid is likely to have a favourable influence on development.
- d) International aid only impacts political risks in underdeveloped countries.

26. What does the author mean by "substantial aid" in the context of this passage?

- a) Aid that is focused on non-self-liquidating projects.
- b) Aid that includes technical assistance and large amounts of capital.
- c) Aid that is primarily composed of grants for health and education.
- d) Aid that exclusively consists of foreign direct investments.

27. Based on the passage, what role does technical assistance play in the early stages of development in underdeveloped countries?

- a) Technical assistance is not necessary in the early stages.
- b) Technical assistance is the primary need in the early stages.
- c) Technical assistance is only important for political risk reduction.
- d) Technical assistance is needed alongside large capital investments.

28. Which two countries mentioned in the passage achieved development with minimal foreign capital investment?

- a) Japan and the Soviet Union
- b) Russia and China
- c) Japan and China
- d) The Soviet Union and India

St Aloysius (Deemed to be University) LIBRARY
MANGALURU - 575003

29. According to the passage, what challenge do underdeveloped countries face in accumulating capital without outside aid?

- a) Encouraging present consumption to boost capital accumulation.
- b) Motivating people to work harder and increase production.
- c) Reducing political risks through authoritarian governance.
- d) Maintaining high consumption standards to attract foreign investment.

Un voyage en train Paul et sa famille partent en vacances à la montagne. Ils prennent le train à la gare de Lyon. Le train est grand et rapide. Ils entrent dans le train et trouvent leurs places près de la fenêtre. Paul est content car il aime regarder dehors. Le train commence doucement puis va tres vite. Par la fenêtre, Paul voit des champs, des rivières et des villages. Il prend des photos beaucoup. Sa sœur dessine dans un cahier. Sa maman lit un livre et son papa boit un café. À midi, la famille mange des sandwiches. Après, il joue avec un jeu de cartes avec sa sœur. Le train s'arrête dans plusieurs gares. De nouveaux passagers montent et d'autres descendent. Après quelques heures, le train arrive à la gare de la montagne. Paul est très excité. Dehors, il fait frais. La famille descend avec ses valises. Paul dit : « C'était un super voyage ! ».

Questions:

40. Où Paul va avec sa famille?
41. Où sont Paul et sa famille assisent dans le train?
42. Que fait la maman pendant le voyage?
43. Qu'est-ce que Paul mange à midi?
44. Le train n'arrête pas dans plusieurs gares. Vrai ou faux?
